Solvestay

India's transparent property platform — zero brokerage, direct owner access

Find homes. Skip brokers. Deal direct.

solvestay@gmail.com · solvestay.com

The Problem

Renting and buying in India is broken — users pay brokers for access, not value.

Pain point	Reality
Brokerage tax	1–2 months rent or 1–2% on sale — even when brokers add little value
Fake / stale listings	Duplicate photos, bait pricing, "already rented" after you call
No transparency	Owner identity hidden until you pay intermediaries
Fragmented search	Houses, PGs, commercial — different apps, different rules
Time waste	Students & migrants spend weeks on WhatsApp groups and broker chains

Users don't want another listing site — they want trust + direct access + fair pricing.

The Solution

Solvestay connects seekers directly with verified property owners.

STEP 1

Browse verified listings

STEP 2

Unlock owner contact (affordable pass)

STEP 3

Chat, visit & deal direct

We monetize discovery, not the transaction.

Owners list free. Seekers pay short-term passes for contact access. Zero brokerage on rent or sale.
